#### Annual M. Y. C. Cruise.

Weather conditions favored the Memphremagog Yacht club on Friday when the annual cruise of the club was taken, though the lowering skies in the morning may have kept some of the timid ones at home. Owing to the inability of Commodore C. F. Bigelow to attend, the arrangements were in charge of vice-Commodore C. S. Emery who managed the cruise with his customary ability and all went as planned. About forty boats took part though less than twenty made the start from the club house, the others being picked up enroute. The steamer Yocco which was chartered for the occasion carried the Newport Concert band and as many more as could be accommodated. Many however, who desired this method of transportation were obliged to give up the trip as applications for passage, exceeded the carrying capacity of the steamer. The trip to Georgeville was made as laid out in the announcement, where a picnic dinner was served, each member of the party being provided with his own basket. After dinner, a race was arranged, between fast boats owned by Stewart Haskell and H. B. Stewart, over a ten mile course. The race was won by the Stewart boat, the first lap of the race being made in 15 minutes 36 seconds. Maynard Skinner and Percy Lawson being the crew of the winning boat while the Haskell boat was run by Wm. Hight and son. Time of winner for ten miles was 33 minutes 20 seconds. On the return trip no attempt at formation was made, each boat choosing its own course, arriving at the Club house anywhere from 5 to 9 o'clock p. m. There was dancing at the Club house in the evening. Everything taken into consideration weather conditions and all, this was the most successful cruise in the club's history, as indeed it should have been if experience counts for anything. The scheme of hugging the shore as near as possible, gives a much better view of all the pretty places and cozy nooks on the Lake and one who has only made the trip in the large steamer has no real idea of the beauty and grandeur of this body of water. Through the influence of the Memphremagog Yacht club, this Lake should become one of the best summer resorts in the country. All we need is publicity.

Don't forget the republican caucus tonight if you are interested, and bear in mind that the county convention is to be held here Wednesday of next week. Congressman Foster is booked to speak, and he will be worth hearing.

The outing of the Ladies' Missionary society planned for Wednesday of last week was postponed till Thursday on account of rain, but was none the less pleasant on that account. The society was entertained at Eagle Point by Mrs. (Dr.) E. E. Whittaker and 29 ladies were present. The trip was made on the Yocco, with exception of two ladies, who missing the boat, went by automobile and rowboat.

Main street has received a coat of "Tarvia" from the postoffice to the railroad. The chief benefit so far discernible is the absence of dust. It is yet too early to predict as to the result of this kind of road making. A pleasant odor of tar permeates the atmosphere and you must step high or carry some away on your shoes. Seriously, when traveled down to the requisite hardness and smoothness, the dressing will no doubt be satisfactory.

Dr. E. D. Robbins, dean of the Boston school of Anatomy and Embalming has been conducting a special session of the school at the undertaking rooms of C. H. Green, the session closing July 18. The course has been followed closely by the class, which has received much instruction and benefit therefrom. Among those attending the school are C. H. Green, Mr. and Mrs. G. D. Pratt, Mrs. Gaylor of South Troy, F. B. Hammond of North Troy, Mr. Grow of Derby and B. S. Curtis. With the exception of Messrs. Green and Grow the class will attend the convention of the Vermont Funeral Directors and Embalmers association at Bellows Falls this week.

Harry R. Holbrook, while attempting to cross the bay in a canoe during the strong wind of Sunday was capsized and but for timely assistance, would probably have drowned. His calls for help were heard by Herbert Wright, steward of the Yacht club, and with Samuel Hamilton, who chanced to be at the clubhouse, put out in a boat, and with assistance of some fisherman, who had also answered the signal of distress, pulled Holbrook into a boat. While able to swim, Holbrook had become frightened, which with the roughness of the water and the distance from shore would probably have proved his undoing. He is visiting at the cottage of F. Davis at Farrant's point.
